Representative Rosa DeLauro
Chairwoman
Agriculture, Rural Development, FDA and
Related Agencies Subcommittee
Committee on Appropriations
U.S. House of Representatives
2362-A Rayburn House Office Building
Washington, DC 20515

Representative Jack Kingston
Ranking Member
Agriculture, Rural Development, FDA and
Related Agencies Subcommittee
Committee on Appropriations
U.S. House of Representatives
1016 Longworth House Office Building
Washington, DC 20515

Dear Chairwoman DeLauro and Ranking Member Kingston:

We the undersigned farm, forestry, conservation and environmental organizations urge you to maintain the mandatory spending levels for conservation programs as provided in the 2008 Farm Bill and to reject the Obama Administration's proposed cuts to the Environmental Quality Incentives Program, Wetlands Reserve Program, Farmland Protection Program, Wildlife Habitat Incentives Program, Agricultural Management Assistance Program, and Healthy Forest Reserve Program. We also encourage you to increase funding for conservation technical assistance and to prohibit the Administration from administratively ending the CRP Public Access program.

The decisions on the farm bill funding were not without a great amount of debate. Congress approved the Food, Conservation and Energy Act twice over the vetoes of President Bush. We are disappointed that President Obama's budget continues the unfortunate pattern of proposing cuts to conservation programs below mandatory levels established in the farm bill, in this case asking for over \$500 million in cuts for FY 10 plus additional long-term permanent cuts. Demand for participation in conservation programs routinely far outstrips available funding, and this proposal will only exacerbate that problem as well as undermine conservation practice adoption on-the-ground.

We urge you to maintain the mandatory conservation funding levels as agreed to last year in the 2008 Farm Bill and reject the proposed one-year and permanent cuts.

Sincerely,

American Beekeeping Federation
