

We all need
clean water to drink.

It is very
important to take
good care of our
watersheds.

We all live
on land.

The way we treat
the land in our
watersheds can
have a big
impact on
the water
we drink.

Locate your local conservation district
and see how you can be involved in their
watershed projects. Visit:
[http://www.nacdnet.org/general-resources/
conservation-district-directory/](http://www.nacdnet.org/general-resources/conservation-district-directory/)

Learn more about your
local watershed by visiting:
