- Define watersheds.
  - Explain the flow of water through a watershed.
  - Realize the importance of watershed conservation.
  - Fun activities!

## Watersheds: Our Water, Our Home Level 3 (GR 4-5)

Designed for students in grades 4-5.

- TOPICS:
- Define watersheds.
  - Evaluate the structure of a watershed with the use of a topographical map.
  - Explain the role of runoff in the transport of sediment and pollution.
  - Fun activities!

## Watersheds: Our Water, Our Home Level 2 (GR 2-3)

Designed for students in grades 2-3.

- TOPICS:
- Observe and participate in water being shed.
  - Evaluate the effect of pollutants on a watershed.
  - Discuss the correlation between their habits and drinking water quality.
  - Fun activities!

## Watersheds: Our Water, Our Home Level 4 (GR 6 and up)

Designed for students in grades 6 and up.

- TOPICS:
- Define watersheds.
  - Evaluate the interaction between the water cycle and watersheds.
  - Explain the role of top soil and runoff water in the Dust Bowl.
  - Fun activities!

## Watersheds: Our Water, Our Home Book (PRE-K-3)

Great for Pre-K through 3rd grade (and older). Large photos to show the importance of water in our life every day.

## Watersheds: Our Water, Our Home Educators Guide

Features student booklets correlated with national standards and learning objectives, activities, list of education resources, book list, and more.

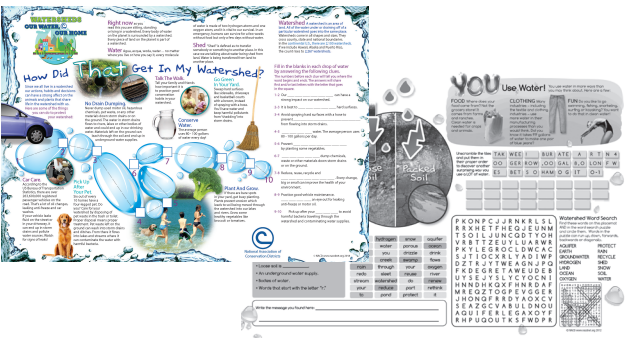

## Watersheds: Our Water, Our Home Bookmark

Great product for your schools, libraries, and community outreach efforts around the topic of water and watersheds.

## Watersheds: Our Water, Our Home Poster

Information covering: What is a watershed? Why is your watershed important? and resource links.

## Watersheds: Our Water, Our Home Placemat/Activity Sheet

Great community outreach product for schools, local restaurants, senior centers, annual meetings, and more. It serves as a placemat or as an activity sheet. 2 sided 9" x 13".
