

## SNOOPING IN POLLINATOR MATTERS

1. Enter your zipcode in the following [website](#) to find what ECOREGION you live in.
2. Mark your ecoregion on the map.
3. List 5 pollinators common to your ecoregion. \_\_\_\_\_

4. Use the following website to check if any pollinators in your region are endangered.

<http://www.fws.gov/pollinators/Programs/Endangered.html>

5. Snoop! Choose one pollinator and collect information on it to complete the "Pollinator Matters" newsletter. Worksheet 2

**ENDANGERED:** List any pollinators from your ecoregion that are endangered or in decline.

**POLLINATOR MATTERS:** Write the name of the pollinator you are investigating in the box.

**HOME IS WHERE THE HABITAT IS:** Describe the pollinators preferred habitat, climate, etc. Discuss any features of the habitat that are causing a decrease in pollinators.

**WHAT'S FOR DINNER?:** Describe the pollinators chosen food sources. Include information on location, color, scent, shape, etc.

**HUMANS NEED POLLINATORS BECAUSE:** List three things we would not have without pollinators.

**POLLINATOR POINTS:** Facts about the specific species you are reporting on.

**TAKE ACTION:** Things you can do to protect pollinators in your ecoregion.

**ENDANGERED:**
