NACD MARKETPLACE

Merchandise Catalog
**EQUIPMENT**

- **Tile Tape**
  - Amazing Tile Tape makes watertight junctions and connections. Unlike other tapes of its kind, it has amazing grip and stretching capabilities, making it the best in the industry.

- **Rat Guards - Band-Type**
  - Prevents rodents and other pests from plugging your drainage systems. Zinc dichromate plating resists corrosion. Easy to install—no drilling required.

- **Rat Guards - Stainless Steel**
  - Discount available when purchased in case quantity. Stainless steel material and hardware provides extended life. Resists rust and corrosion. Easy to install.

- **Rat Guards - Mild Steel**
  - Discount available when purchased in case quantity. Zinc dichromate plating resists corrosion. Easy to install. All bars are MIG welded on both sides.

- **Grade Gauges**
  - Agri Drain 1000 Series Grade Gauge™ reads out in percent of grade, commonly used with tiling machines and road graders.
  - Agri Drain 3000 Series Grade Gauge™ reads out in slope ratio, commonly used with bulldozers.

- **Heavy Duty Flap Gates**
  - Helps keep damaging water out of drainage systems. Designed for use on PVC and CMP. Constructed of rugged 3/16" steel material with a durable powder coat finish.

- **Standard Stainless Steel Flap Gates - Plastic**
  - Rugged steel construction ensures a longer life and helps keep drainage systems from flooding. Designed for use on corrugated plastic tubing.

- **Standard Stainless Steel Flap Gates - CMP or PVC**
  - Designed for use on PVC and CMP. Constructed of 304 stainless steel. Great for use where water is caustic, acid, corrosive, salt, or pH below 5 pH or above 9 pH.

- **Standard Flap Gate - Plastic**
  - Designed for use on corrugated plastic tubing. Flap is galvanized, 12 ga. mild steel. Flap Gate does not have a gasket and is not watertight.
Probes - 3/8" Rod

For locating buried tile lines, pipes, underground tanks, and a variety of other applications. Weighted handle works like a post driver to power the probe in and out.

The power probes (4.5' and 5.5 size) are the only probe that has a weighted handle.

Bar Guards - Heavy Duty

Helps eliminate plugged inlets by keeping out big chunks of debris. An excellent choice in any situation where a low-profile, high-capacity intake is required.

Bar Guards

The unique design helps eliminate plugged intakes and protects pond tubes from rodent entry. Fights debris to help keep intakes flowing freely. Constructed of 1/4" steel rod.

Water Quality Inlet

Water Quality Inlet resists plugging and improves water quality by filtering debris before it enters the drainage system, and it replaces standard inlets in farm fields, ditches, dry dams, and terraces.

Watermaster Floating Pump

Move water FAST with the Watermaster Floating Pump! Use it in a variety of applications including floodwater removal from buildings and basements, draining low spots in farm fields and ditches, removing excess water from construction sites and golf courses, and pumping water for fire suppression.
