

TECHNICAL ASSISTANCE GRANT PROGRAM

Concurrence Document

(to be submitted by partnering districts/tribes to the lead organization on a TA2020 application)

This form indicates to NACD that the applicant listed will have grant supported staff that will be working across other districts or tribes and that those other organizations concur with the proposed plan of work. The applicant must submit an online application during the RFP's application period at:

https://nacd.formstack.com/workflows/tagrant_2023.

During that submission, there will be instructions to upload signed Concurrence Documents when the funds are to be used across multiple districts/tribes. A printed email (with appropriate signature block), or a locally generated document could also be used instead of this form. When a Regional/State/Territory Organization is the applicant and the staff will be covering the entire area, check with your NACD Region Rep, or NACD Conservation Programs team at conservationprograms@nacdnet.org for what is required.

If more than three Concurrence Documents need to be uploaded, additional completed forms should be emailed to your NACD Region Rep before the RFP closes. You can find your Rep at https://www.nacdnet.org/technical-assistance-grants/
